Hi, all.

Please take a look at the relevant sections of this document sometime next week.

Thanks,
Lindsay

Subject: FW: For your review: Ed's Prep Backgrounder for Mississippi Crop Tour - Due August 29th

We have a request to provide background information for Ed in preparation for a trip to MS. Please provide input by 8/26th so we can complete a quick review on the 29th.

S18s/24cs – MUERB
Dicamba - HB
Enlist – HB
Sulfoxaflor – IVB3
ESA – EFED (but Paul to review)

Subject: For your review: Ed's Prep Backgrounder for Mississippi Crop Tour - Due August 29th

Good morning,

Per Ed's request, I created a document in the link below with topics that Ed would like to include in his backgrounder in preparation for his participation in the Mississippi Crop Tour August 30- September 2. I added the general updates for some of the topics (based on Mike's recent ASPCRO presentation). Ed would like to also include points with important state-specific issues. The major state crops are Corn, Soy, Cotton, Rice. Please add any state-specific information and updates for the topics highlighted red at the end of the document. **Ed would like this information by Monday, August 29th. Thanks!**

Subject: Mississippi Tour

I am heading to Mississippi at the end of the month. Can you let me know if we have any important issues associated with that state. For example what 18s and 24cs have been approved or are in process? Darlene can start a word document for folks to input into.

Recent information on the following will help:

Diuron

Atrazine

Seed Treatments

ESA

Sulfoxaflor

Dicamba

Ops

Enlist

Chlorpyrifos – including rice weevil in grain.

Cotaram in rice.

We are also meeting with some arial applicators and they will ask me about the paraquat restrictions and our rationale.

Major crops are Corn, Soy, Cotton, Rice.

Thanks,

Ed
